# HOW DO WE ENGAGE OUR CLIENTS?

**At Hawkish Group**, we believe in collaborative problem-solving and providing comprehensive solutions for businesses and individuals. We offer a unique advantage by bringing together diverse professionals with specialized skills, eliminating the need to search for multiple service providers.

Our **ONBOARDING FLOW** process sets the support in motion, ensuring a seamless experience for our clients.

**HAWKISH  
GROUP**  
LONDON

# Here is how we onboard clients:

## Finance

Additionally, our finance accountant will send an initial invoice. Upon payment confirmation, we will add you to our accounting/invoice software and provide receipts.

## Legal

Next, our Legal team will conduct a meeting to evaluate the legal aspects of our engagement with you. Following this, we will provide a Non-Disclosure Agreement for your signature.

## Welcome

Our attentive business management consultants carefully listen, assess, and address clients' concerns. Once we have a clear understanding of their needs, we provide onboarding documents, including a client intake info form and engagement letter, to kickstart the process efficiently.

## Communication

In this phase, we schedule a meeting to gain further clarity on clients' needs. Our professionals, including the content team, ask essential questions for proper documentation. We then draft a concise problem statement, and the project manager establishes a project timeline for the team to follow.

## Project Sprint I

In this phase, we finalise required documentation, establish requirements, assign tasks, and share initial strategy documents with clients.

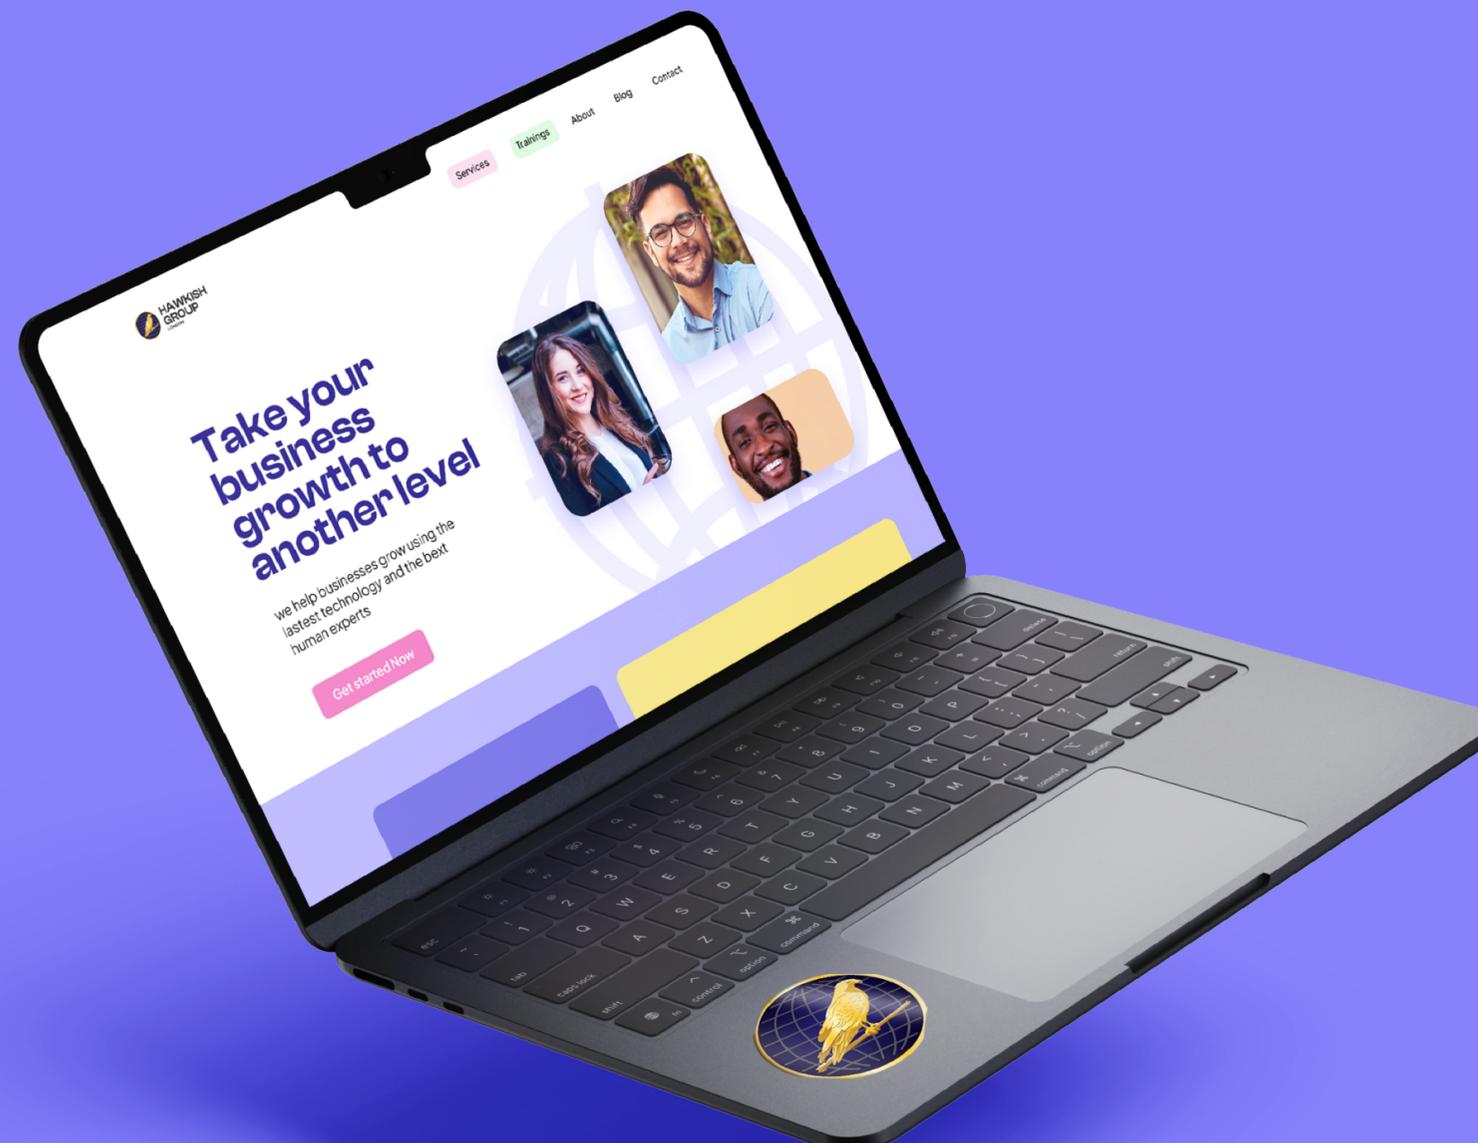

## Project Sprint II

We schedule meetings with clients and social media teams, add clients to a shared folder for deliverables, and provide regular project progress briefings.

## Closure

We schedule a meeting with clients and the entire team to officially close the project, hand over all deliverables, and exchange feedback forms.

Whether you seek to embark on a digital transformation journey encompassing web design, mobile application development, UI/UX design, or require expertise in accounting, tax, oil and gas, immigration, legal support, and more, Hawkish Group has the comprehensive solutions you need.
